*This symposium is supported by an educational grant of:*

*This symposium is organized in cooperation with:*

Symposium, March 13<sup>th</sup> 2009, MECC, Maastricht, NL

The ild care foundation ([www.ildcare.eu](http://www.ildcare.eu)) together with the wasogbal2011 foundation ([www.wasogbal2011.nl](http://www.wasogbal2011.nl)) organizes the symposium 'Sarcoidosis: an update' on March 13<sup>th</sup> 2009. The program will focus on sarcoidosis, a multisystem disease, which affects mostly young adults. Sarcoidosis can present with all kind of symptoms related to the organs involved. Therefore, a multidisciplinary approach is mandatory. During the morning session famous speakers, all members of the executive board of the WASOG\*, will present state of the art lectures on the clinical presentation, diagnostic approach and therapeutic options. The afternoon program offers multidisciplinary case presentations stressing these issues and will focus on new developments and their clinical relevance.

(\*) WASOG: World Association of Sarcoidosis and Other Granulomatous disorders
